

Features documentation

Catalog

This features allows you to create Product pages.

Little warning: if you have menus, don't create them with this feature but use the "Menu" feature instead which is more appropriate.

1. Create a main category (click on "+main category"):

FEATURE SETTINGS

Page name:

Activated

Social Sharing

2. There are 2 options:

- create a sub-category if needed (by clicking on "+ sub-category") :

- or directly create a product (by clicking on "+ Product") :

Features documentation

EDIT THE PRODUCT

← OK

Product name :

Description :

Price :

Picture :

× 

Notes :

- Think carefully about the order in which the main categories appear as they will appear in the same order they will be created.
- You can create all you main categories first, then all your subcategories and finally all your products in the appropriate subcategories.
- You can drag and drop all your subcategories (in a same main category) by clicking on .

An example of a subcategory order modification:
The subcategory “With Bacon” is 1st:

Features documentation

PRODUCT FORMATS

	Format	Price
1st	<input type="text" value="Format"/>	<input type="text" value="Prix"/>
2nd	<input type="text" value="Format"/>	<input type="text" value="Prix"/>

[Add a format](#)

The subcategory "With Bacon" is 2nd:

You can do the same thing with products:
"Alabama" is 1st:

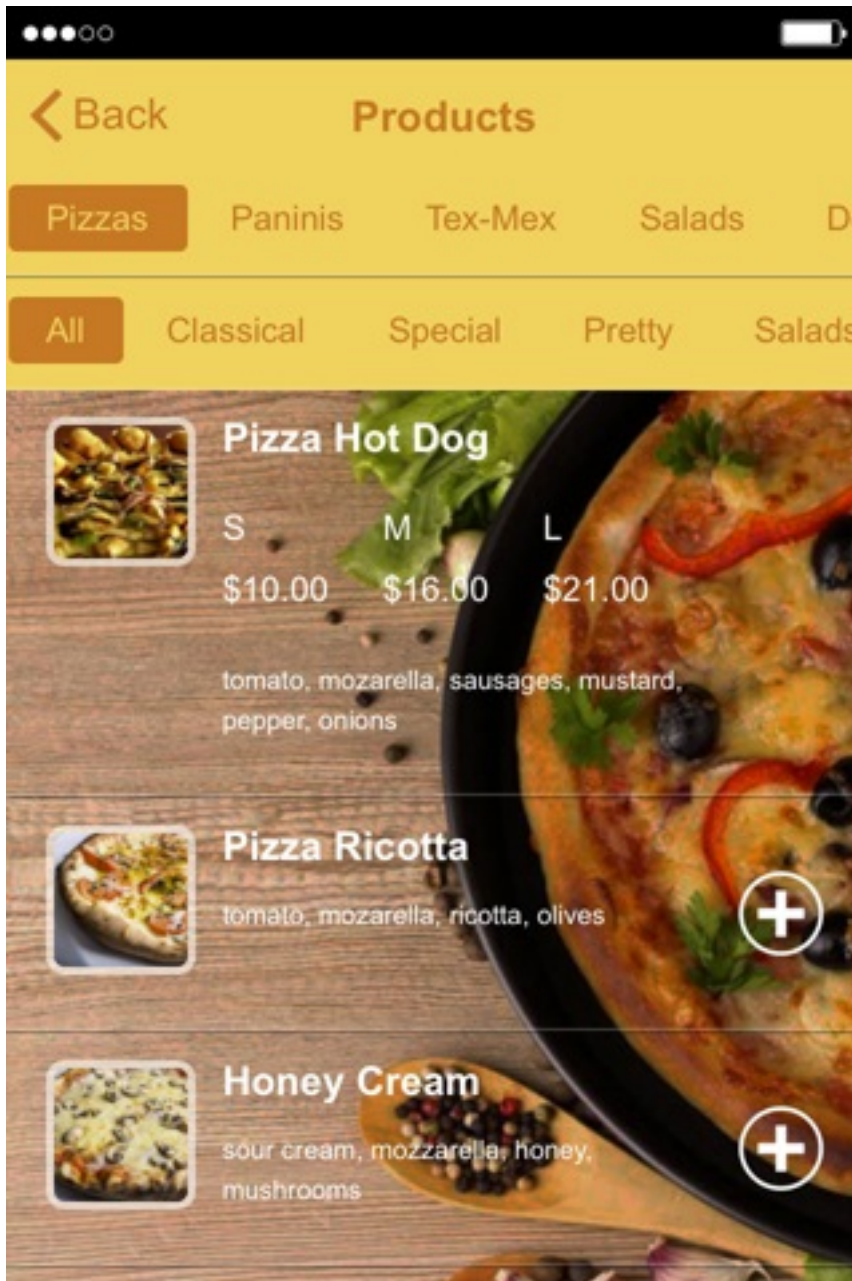

+ Alabama	\$7.00	✎ ✕
+ Texas	\$9.00	✎ ✕

"Alabama" is 2nd:

+ Texas	\$9.00	✎ ✕
+ Alabama	\$7.00	✎ ✕

You can obtain this:

Features documentation

You can also choose another design for your page, from the different page designs at the bottom of the feature:
