

Features documentation

Images

This feature allows you to create image galleries. You've got four options:

- **Create a gallery from Picasa**
- **Create a gallery from Instagram**
- **Create a gallery with your own photos**
- **Create a gallery from Facebook**

1. Create a gallery from Picasa

The **“name”** field allows you to give a name to your gallery. If you have several galleries, users will thus be able to choose the gallery they want to take a look at. With the **“search”** field you'll be able to retrieve all photos from Picasa that are relevant to this search.

A screenshot of a web form titled 'ADD' in a light gray box. At the top right is a blue button with a white plus sign. Below the title, there are two input fields. The first is labeled 'Gallery Name * :' and contains the text 'Food'. To its left is a small blue button with a white 'G'. The second input field is labeled 'Search * :' and contains the text 'Burger'. To its right is a blue button with the text 'OK'.

And the result is:

Features documentation

You can also retrieve all photos from a specific Picasa album or Picasa account:

- **Fill in the Search field with your Picasa account email.**
- **Select the album you want to add to your app (Your Picasa album must be public).**
- **You're done.**

2. Create a gallery from Instagram

Features documentation

Since Instagram has changed their API policies, now you must use your own Instagram keys in order to create an Instagram gallery. You will find how to create your Instagram API keys [here](#).

FEATURE SETTINGS

Page name:

Maximum size : 2000*2000 px - Allowed filetypes : jpg and png

Title:

Center Park

Description:

Last sunny day in Central F

×

You can upload several photos in the same time, just select from one folder all the photos you want to upload.

It's not mandatory, but you can enter a title and a description for all your photos. Click on **“Ok”** to save your gallery.

4. Create a gallery from Facebook:

Enter the Facebook ID of your Facebook page and choose which images you want to

- ✓ Cover Photos
- Profile Pictures
- Timeline Photos
- Mobile Uploads

show in the “Search” field .

To create a new gallery, click on  and repeat the above process.

You can also create a gallery from a Facebook Fan Page, just enter the Facebook Fan Page ID and do the same process.
