

Features documentation

Booking

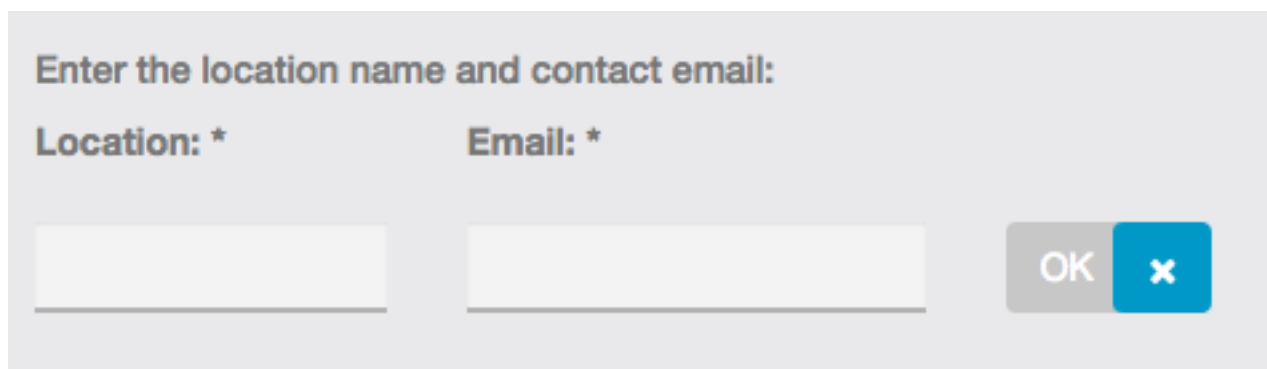

Thanks to this feature, your customers can schedule an appointment at your business(es).

If you want to add this feature to your application, that is very easy. First of all, you have to click on the Booking feature:

The screenshot shows a configuration panel for the 'Booking' feature. On the left is a blue icon representing a calendar with a person. To its right, the text 'Page name:' is followed by a text input field containing the word 'Booking'. Further right, the text 'Activated' is followed by a blue toggle switch that is currently turned on. At the bottom of the panel, the word 'ADD' is displayed in a large, light blue font, and to its right is a blue square button with a white plus sign.

Then, you have to click on "+" and to enter the location of your business and the email address of the manager:

The screenshot shows a form titled 'Enter the location name and contact email:'. Below the title are two input fields. The first is labeled 'Location: *' and the second is labeled 'Email: *'. To the right of the 'Email: *' field are two buttons: a grey button labeled 'OK' and a blue button with a white 'x' icon.

If you have several businesses, you can add these businesses to your Booking feature. To do that, you only have to click on "+". Then, you just have to enter the location of this business and the email address of your manager. You can do this process, as many time as you want in order to reference all your businesses.

Why these information ?

The location of your business(es) is important for your customers, so that they know exactly where they schedule their appointments.

Thanks to the email address of your manager, the application will send him an email to validate the appointment.

And the result:

Features documentation

The screenshot shows a mobile application interface for a reservation form. At the top, there is a red header bar with a back arrow and the text "De retour Réservation". Below the header, the form consists of several input fields: "Prénom / nom de famille", "Téléphone", "E-mail", "Nombre de personnes" (with a dropdown arrow), "Emplacement" (with a dropdown arrow), "La Date et l'heure", "Les détails de la réservation", and "Commentaire". The bottom of the screen shows the standard Android navigation bar with back, home, and recent apps buttons.

Just fill out the different cases you need and your appointment is done!
